# FAITHSHIELD INDIA PRIVATE LIMITED

*Empowering Trust, Ensuring Safety*

## **About us:**

At Faithshield India Private Limited, we are at the forefront of safety and security innovation, revolutionizing the fire safety, rescue, and disaster management sectors with our cutting-edge solutions. As a dynamic startup, our commitment to protecting lives and properties is driven by a blend of innovative technology and unparalleled expertise through our competitive production technologies. Faithshield India Pvt. Ltd. is dedicated to crafting and delivering state-of-the-art products designed to tackle the complex challenges associated with fire hazards, rescue operations, disaster management, and security systems.

Our team is comprised of industry veterans and skilled professionals who bring a wealth of experience and a deep passion for safety and security to every project we undertake. This blend of seasoned knowledge and cutting-edge skills enables us to address these challenges effectively and innovatively. We are committed to fostering long-term partnerships built on trust, transparency, and mutual success.

## **Vision:**

To become one of the fastest growing companies in India and to be a leading global provider of fire and safety products, offering a wide range of cutting-edge solutions for industries, businesses, and households by elevating and upgrading fire, life safety and security standards.

## **Mission:**

To provide high-quality, innovative, and reliable fire and safety products that ensure the protection of lives, property, and the environment, while delivering excellent customer service and exceeding industry standards, ensuring preparedness for any emergency scenario.

# OUR CORE PRODUCTS

## THE POWER OF MIST..

Innovative & Revolutionary watermist Fire Extinguishing Solutions. A fire protection system which uses very fine water spray in the form of a mist. The small water droplets allow the watermist to control, suppress or extinguish fires by cooling mechanism which cools both the flame and surrounding gases by evaporation. Steam takes place of oxygen by killing oxygen supporting fire and that too without toxic / hazard gas formation and avoids re-ignition of fire.

## State Of The Art-Rapid Action Fire Fighting System

Low Pressure Back Pack  
Watermist & Caf System (9L/10L)

High Pressure Back Pack  
Watermist & Caf System (9L/10L)

Low Pressure Trolley  
Mounted Watermist & Caf System (50L)

High Pressure Trolley  
Mounted Watermist & Caf System (50L)

Cutting Edge Rapid Action  
Firefighting Bike

Tetra Quad Extinguishing System  
(250-400 lts)

# OUR RESCUE & DISASTER MANAGEMENT PRODUCT RANGE

## Self Contained Breathing Apparatus

EN Fire Proximity Suit
